

notes from the field

Location: *North of Kandy, Sri Lanka*

Product Sourced: *Organic Nutmeg*

The Story: *One of our Well Earth® certified partners, Mr. K.M. Senvirathna, is the president of the local SOFA (Small Organic Farmers Association) branch, and has farmed for more than 20 years. Nutmeg is a very difficult product to handle, due to mold/afatoxin issues, so Mr. Senvirathna utilizes several specialized processing techniques to prevent mold and ensure quality. Having looked at many, many samples, I can say with confidence that we have the finest organic nutmeg available.*

Part of our Well Earth®
sourcing program.
